**INFORMATION DISCLOSURE STATEMENT**

Dear Sir:

Applicant wishes to cite references that have been cited in the corresponding Supplementary European Search Report dated 11 July 2008. Each item of information contained in this Information Disclosure Statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of this Information Disclosure Statement.

A copy of the pertinent pages from the Rankl handbook, which are in the German language and were provided by the European Patent Office is enclosed. This document is designated as a "Y" reference which indicates that it is "particularly relevant if combined with another document of the same category." A translation from German to English is not in the custody or control of, or readily available to, anyone having a duty under 37 C.F.R. §1.56.

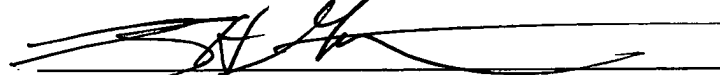

A copy of German publication DE 41 09 114 A1 is enclosed. This publication was cited by the European Patent Office as an "A" reference, which indicates that it is for "technological background." A translation from German to English is not in the custody or control of, or readily available to, anyone having a duty under 37 C.F.R. §1.56.

The European Search Report cites PCT publication WO 01/71516 A1. Since everything but the abstract is in Japanese, applicant has obtained a copy of corresponding U.S. Patent Application Publication No. US2003/0159040 A1. This U.S. patent application publication, in English, is enclosed.

Applicant believes no fees are required with this submission. However, the Commissioner is hereby authorized to charge any deficiency deemed necessary to Deposit Account No. 19-1351.

Respectfully submitted,

SEYFARTH SHAW LLP
